THE SOCIAL VINE STUDIO

Digital Marketing Agency | Business Brief for Website Development

Prepared for the website designer / developer | October 2026

SECTION 1

About the Business

The Social Vine Studio is a digital marketing agency that grows brands and helps them gain reach on social media. We take care of a brand's social presence end to end, from strategy and content to posting and growth, so business owners can focus on running their business.

The website must make a new visitor understand in a few seconds what we do, trust us, and contact us.

At a glance	
Business name	The Social Vine Studio (short form: The Social Vine / TSV)
Business type	Digital marketing and social media agency
What we do	Grow brands and increase their reach on social media
Who we serve	Small and medium businesses, local brands, startups and creators in India
Core strengths	Social media management, content creation, digital marketing, AI-assisted content workflows
Location / service area	*[add city / state]; serving clients across India*

Mission

To help brands become visible, trusted and talked about online through consistent, creative and well-planned social media.

Brand voice

- Friendly, confident and professional; simple English, no heavy jargon.
- Creative and modern, but focused on results for the client's business.
- Honest: we do not promise guaranteed numbers or overnight growth.

SECTION 2

Services to Show on the Website

Each service should have its own short card on the Home page and a full block on the Services page (icon, title, 2-3 line description, and a 'Get a Quote' button).

Service	What it includes
Social Media Management	Managing Instagram, Facebook and other platforms: content planning, posting, captions, hashtags, community replies.
Content Creation	Reels / short-form videos, static posts, carousels and stories designed to match the brand.
Content Calendars	Planned monthly or 15-day calendars covering reels, posts and stories, delivered as a clear plan before posting.
Brand Growth & Strategy	Understanding the brand, audience and competitors, then building a plan to increase reach and engagement.
Personal Branding	Short-form video and content support for creators, founders and professionals building their name.
Digital Marketing	Promotion of the brand across digital channels, including paid campaigns where the client needs them.

Designer note: the owner can add, remove or rename services before launch. Pricing is not shown on the site; use 'Request a Quote' instead.

Who we work with

Cafes and restaurants, gyms and fitness studios, salons, real estate, coaching classes, clinics, retail and eyewear shops, e-commerce brands, and creators.

How we work (4 steps, show as a timeline)

Step	Description
1. Discover	Short call to understand the business, goals, audience and brand.
2. Plan	We build a content strategy and calendar.
3. Create & Post	Our team creates and publishes content on a regular schedule.
4. Grow & Report	We review what works, improve, and share progress with the client.

SECTION 3

Website Goals and Audience

Primary goals

- Look credible and professional so business owners trust us with their social media.
- Generate enquiries: calls, WhatsApp messages and contact form submissions.
- Showcase our work (reels, posts, content calendars) and client results.
- Rank on Google for local and service searches (basic SEO from day one).

Target visitors

- Business owners and managers who want more reach and customers from Instagram / Facebook.
- Startups and local brands with little time to handle social media themselves.
- Creators and professionals who want help building a personal brand.

Main calls to action (repeat across pages)

- **Get a Free Consultation** (primary button, top-right of header and in every section end)
- **Chat on WhatsApp** (floating button on every page, mobile and desktop)
- **View Our Work** (secondary button on Home)

SECTION 4

Suggested Sitemap and Page Content

Page	Content
Home	Hero line + one-sentence pitch + CTA; services overview; featured work; why choose us; testimonials; final CTA.
About	Our story, mission, the team, how we work.
Services	Full details of each service with 'Get a Quote' buttons.
Portfolio / Work	Grid of reels, posts and content calendars by industry; click to view details.
Results / Testimonials	Client feedback and growth stories (only real, approved ones).
Blog (optional)	Social media tips for businesses; helps Google ranking.
Contact	Enquiry form, WhatsApp, phone, email, location, social links.

Hero section idea

Headline: We grow your brand on social media.

Sub-line: Strategy, content and management for businesses that want more reach, more customers and a stronger brand.

Buttons: Get a Free Consultation | View Our Work

Wording above is a starting suggestion and can be refined by the owner.

Why choose us (4 short points)

- One team for strategy, content and posting.
- Clear plans and content calendars before anything goes live.
- Modern short-form video and AI-assisted content workflows.
- Regular updates so clients always know what is happening.

SECTION 5

Design Direction and Features

Brand identity

- Logo: TSV monogram in a circle, black and white (logo files to be supplied).
- Main palette: black, white and soft greys for a clean, premium look.
- Suggested accent: a deep vine green for buttons and highlights (final colour to be approved by the owner).
- Typography: one modern sans-serif for headings and one clean one for body text.

Look and feel

- Modern, minimal and bold; plenty of white space; large visuals and video.
- Should feel like a social-media-native brand, not a corporate template.
- Subtle animations (scroll fade-ins, hover effects); nothing that slows the site.
- Designed **mobile-first**: most visitors will arrive from Instagram on their phones.

Required features

Feature	Notes
Responsive design	Perfect on mobile, tablet and desktop.
Contact / enquiry form	Name, phone, email, business type, message; emails to the owner.
WhatsApp button	Floating button with pre-filled message.
Portfolio gallery	Embedded reels / images with fast loading.
Social media links	Instagram and other profiles in header or footer, opening in a new tab.
Basic SEO	Page titles, meta descriptions, alt text, sitemap, Google-friendly structure.
Speed and security	Compressed images, SSL (https), fast loading.
Analytics	Google Analytics and Meta Pixel setup.
Easy to edit	Owner should be able to update text, images and portfolio without coding.
